

Veteran Discussion Guide

eXcite^{OSA}

Clinically proven daytime therapy for
mild obstructive sleep apnea and snoring¹⁻²

eXcite^{OSA}® is a non-invasive, FDA-authorized device that provides a convenient daytime therapy and does not require a night-time wearable. It improves the muscle function of the tongue through stimulation therapy. This trains the upper airway to remain open during sleep, thereby improving sleep quality.¹⁻²

Why Veterans Choose eXcite^{OSA}

- FDA-authorized and clinically proven
- Daytime therapy without the need for a night-time wearable
- Only 20 minutes a day
- Non-invasive
- Convenient, portable, hand-held device

Talk with your VA provider about your snoring and mild sleep apnea

An important step to understanding how to better manage your snoring and mild sleep apnea is to have a conversation with your VA healthcare provider. Use this printable guide to help start the conversation with your VA healthcare team to see if eXcite^{OSA} is right for you.

Doctor Discussion Questions:

What are the indications for eXcite^{OSA}?

How does eXcite^{OSA} work?

What can I expect during therapy?

How is eXcite^{OSA} different from other therapies?

Will you be informed of my progress with the therapy?

Notes: _____
